## BASKET BALL ON AMERICAN SOIL

Much Touted Australian Scrapper Here, but Is Not Ready to Talk Fight.

San Francisco, April 17.—The Australian pugilist, Bill Reynolds, landed on the steamer Ventura this morning. At first sight Reynolds is not very impressive, as he is much shorter in stature than our heavy-weight fighters, but he has remarkably broad shoulders, a powerful chest and long arms. Reynolds, his manager, declares that he is not an Australian Scrapper as he is having an ideal fighting figure.

Over there is a man who carries himself like a giant, a man who slouches and who swings his arms when he walks like a gorilla. We have no use for a man who stands up straight like Jack O'Brien, for instance, as though he were posing.

Reynolds went on to say that when they left Australia, Squires weighed about 175 pounds and he apparently has not lost any weight on the trip as he is still only two days out. Reynolds is going to think that some time today we will receive an offer to fight Burns, said Reynolds, "but we will not consider offers of any kind for at least three days. We intend to go to some country place near by and lay out until Squires has gotten rid of his sea legs. We are under the impression that we would not be offered a match until after the Burns-O'Brien battle at Los Angeles."

## CHAMP TO MEET CHAMP.

Daniels and Taylor to Race in English Waters.

New York, April 17.—C. M. Daniels of the New York Athletic club has accepted a challenge from Henry Taylor, the latter is the long distance champion of England, and is supposed to be one of the world's fastest swimmers. The match will take place at Battersea, September 15, where most of the English salt water championships are held.

## ONLY MORMON PLAYER IN BIG LEAGUE

When the New York American baseball team passed through Washington on its way to New York the youngsters were out of a swimmer, and explication, says the New York Globe, "Roy Castleton took a look at the Capitol and the White House and pointed out to him where Senator Smoot once made a desperate stand against public opinion. He is from the big leagues. The newspapers around the circuit all advertise him as the only Mormon ball player in the big leagues. He has been a visitor to pitch Castleton on ladies' day. This notoriety is very annoying to the Utah twister, who is of a bashful disposition—nothing like one would expect of a disciple of Brigham Young."

## LEROW WINS ROLLER RACE.

A large crowd witnessed the second qualifying race last night at the auditorium. The race was full of exciting incidents. From the start it was nip and tuck between Lerow and Mr. Lemon, until Mr. Colson fell, which left him out of the race. It was then a struggle between Lerow and Lemon, and the race was Lemon's until he also fell. The race was won by Lerow in the slow time of four minutes. Lemon was not in the race at any period, the others being too fast. The third heat will be run tonight.

## PRACTICE FOR EXHIBITION.

### All Hallows and High School Claim Saint Has Dr. Osler's Age Limit.

McCloskey, the pitcher of the L. D. S. university team, is the cause of great agitation in the High School league. All the other teams are strongly opposed to his playing. It is said, and make several charges regarding his eligibility. A meeting of the managers was held yesterday and the matter was brought up by High School and All Hallows. After considerable discussion the meeting was adjourned without any decision being arrived at. From the way Professor George A. Eaton of the High School expressed his views on the case, it is doubtful whether he will permit the High School to meet the L. D. S. university with McCloskey in the game. The protesters claim that he is 27 years of age, which is beyond the age limit for players of the league, that he played on the L. D. S. team eleven years ago and that he was a member of the Eureka team some seasons ago. They cannot collect absolute evidence that he is ineligible.

# S.S.S. SKIN DISEASES

No skin disease can exist without an underlying cause, and in most instances that cause is either a humor in the blood or an excess of fiery acids in this vital fluid. These humors and acids get into the blood, generally because of an inactive and sluggish condition of those members whose duty it is to collect and carry off the waste and refuse of the body. This unhealthy matter is left in the system to sour and ferment, and soon the circulation becomes charged with the acid poison. The blood, in its effort to rid itself of this foreign matter, begins to throw off the humors and acids through the pores and glands of the skin. These coming in contact with the delicate tissues and fibers with which the skin is so abundantly supplied produces irritation and inflammation on the surface, and Eczema, Acne, Tetter, Psoriasis, Salt Rheum, or some other troublesome and disfiguring skin disease is the result. External applications, while they soothe the itching, and are beneficial in keeping the skin clean, can never cure skin affections, because they do not reach the blood where the real trouble is located. A thorough cleansing of the blood is the only permanent cure for skin diseases. S. S. S., the greatest of all blood purifiers, is the best treatment. It cures by neutralizing the acids and removing the humors from the circulation so that the skin, instead of being irritated and diseased by the exuding acid matter, is nourished and soothed by a cooling, healthy stream of blood. S. S. S. goes down to the very bottom of the trouble, removes the foreign matter and thereby permanently cures every form of skin trouble. Do not expect to cure a blood disease with local applications alone, but begin the use of S. S. S., and when you have removed the cause the skin will be free from disease.
